

June 5, 2020

Paris Plant Dept 356/359,

Please make sure you are checking text messages and answering phone calls as we are actively communicating schedule updates with you.

Dept 356/359 3rd shift Team Members will need to report back to work next week starting June 8th. We will be moving you between the 1st and 2nd shift so it is important you check text messages and answer our calls to learn of your new start time. We do not know how long you will be assigned to the new shift, but we will keep you updated as information becomes available.

I hope everyone has enjoyed their time off and has stayed safe and healthy. I look forward to seeing you back at work next week. Please let me know if you have any questions.

Thank you,

Matt Colvin
General Foreman
